Sir:

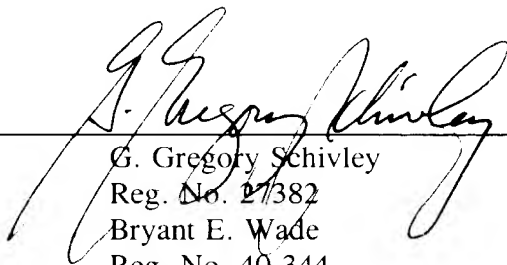

Since the present application is a continuation application filed under 37 C.F.R. §1.53(b), it is Applicant's understanding that all of the references previously of record in the parent application, Serial No.09/157,255, filed September 18, 1998 are now also of record in the present continuation application. Such references, which are listed on the attached PTO Forms 1449 and 892, include those cited both by the Applicant and by the Examiner in the parent application. Accordingly, Applicant respectfully draws the Examiner's attention to the references previously of record in such parent application and now of record herein.

The above references are being cited only in the interests of candor and without any admission that they constitute statutory prior art or contain matter which anticipates the invention or which would render the same obvious, either singly or in combination, to a person of ordinary skill in the art.

Respectfully submitted,

Date: June 29, 2000
